Re: Schedule Modification for the RI/FS, PRAP  
and ROD for Sites 6 & 7 at Naval Weapons  
Station Yorktown, Yorktown, Virginia

Dear Mr. Mihalko:

In accordance with the Federal Facilities Agreement for Naval Weapons Station Yorktown, Yorktown, Virginia (WPNSTA Yorktown) the Navy is requesting a schedule modification for the Remedial Investigation Report, Feasibility Study, PRAP and ROD for Sites 6 and 7. This schedule modification is requested so that additional data on the extent of contamination in the former holding impoundment and groundwater/surface water interaction at Site 6 can be incorporated into the aforementioned documents. Figure 1 presents the new deliverable dates for Sites 6 and 7 deliverables. Our letter of January 8, 1996 stated that an additional schedule modification may be necessary based on funding delays. Due to the late receipt of FY 96 funds, the additional sampling did not occur until February (12 through 24).
